

ONE LITTLE MAN IN A FLYING SAUCER

MILAN, Friday.

A claim to have photographed a flying saucer and its pilot was made here by Gian Pietro Monguzzi, 29-year-old draughtsman.

He said that the saucer landed in a glacier of the Bernina group in the Italian Alps two months ago when he was climbing there with his wife.

He claimed that the "Flying saucer touched down for a few minutes and a figure of human shape wearing a sort of diving suit got out, walked round the saucer as if inspecting it. He then re-entered the saucer and it took off without sound at breathtaking speed and disappeared in the direction of Switzerland.
