

Flying Saucer Body Hopes For Visitors

AUCKLAND, Oct. 28.

A.A.P.-Reuter. — The Civilian Saucer Investigation (New Zealand) Organisation, established a fortnight ago to prove or disprove the existence of flying saucers, has affiliated with the International Flying Saucer Bureau, with headquarters at Bridgeport, Connecticut, United States.

Albert K. Bender, President of the Bureau, wrote to the Auckland organisation the day after its establishment was reported.

About 100 letters have arrived from various countries, including the United States, France and Australia.

"We would like to be considered 'friends of flying saucer occupants,' provided they decide to land on earth with a friendly attitude," Mr. Bender wrote. "Perhaps they will be able to use mental telepathy and know that we shall welcome their visit."
