

NOT FLYING SAUCER

Chicago, Tuesday.—
An airliner pilot said today his plane had been accompanied to a Chicago airport by a mysterious group of lights.

"It wasn't a flying saucer, but I don't think it was an airliner or military plane," said the pilot, Ernie Thorpe, aged 32

All we saw was a group of lights flying alongside of us," he said." There were five or six white ones and a rapidly blinking red one—all in a straight line."

Radar posts reported nothing unusual.
