

# **Saw Flying Saucer At George Tn.**

**MR. P. FREEMAN,**  
Franklin St., George  
Town, claims to have  
seen a flying saucer over  
George Town Bay on  
Sunday morning.

Mr. Freeman was formerly a navigator in the Royal Air Force.

He said yesterday: "I have no doubt that what I saw was not an aircraft as we know it.

"This object flew over at about 8000ft. and was travelling at terrific speed.

"To me it appeared about the size of a tennis ball and was silver in colour.

"It made no noise, and my son, Stephen, aged seven, who also saw the thing, described it as 'a dish spinning'." said Mr.

**dish spinning’,” said Mr.  
Freeman.**
