

'OUTER SPACE' WARNING

NEW YORK, October 8 (AAP) —A telephone caller caused a panic yesterday when he disrupted a radio show by claiming to be "from outer space."

Jinx Falkenberg and her husband, Tex McCrary, were interviewing Major Donald Keyhoe about his new book, "Flying Saucers from Outer Space," when the call came through.

Miss Falkenburg became hysterical when she answered and her husband took the phone.

He inadvertently held the receiver close to the microphone.

Listeners heard a thickly accented voice warning "earthman to stop talking about flying saucers, bombs, and preparations for war"

Major Keyhoe and his publishers denied that they had anything to do with the hoax.
