

## FLYING SAUCER REPORTED OVER STANTHORPE

STANTHORPE, January 7.—Harvey George Ludlow, a middle-aged man who resides in Johnson Street, Stanthorpe, and who is well known as a local preacher, says he saw a flying saucer on Wednesday afternoon.

He was resting on the verandah at his home about 1.45 p.m., when he heard a noise like an aeroplane, and saw it going down between two clouds. I noticed it was a different shape to an aeroplane, and saw it was round. I then realised it must be a flying saucer."

"It came down, circled three times, when the sun shone on it, and gleamed brightly like aluminium. After circling around, it zoomed straight up into the air, and was soon out of sight."

"It could travel much more quickly than any aeroplane," he said.
