

Suburban Family See Flying Saucer

A family who were sitting outside their delicatessen shop in Port road, Hindmash, at 10.49 p.m. yesterday said they saw a flying saucer flash across the northern sky.

Mrs. L. M. Hornby, who runs the shop with her husband, Mr. W. J. Hornby, said "Suddenly my son John shouted that he had seen a flying saucer flash from west to east.

"We didn't believe him and were discussing it when 10 minutes later the object reappeared, this time flying from east to west.

"It was crescent-shaped and orange in color.

"It didn't remain in sight very long and disappeared in cloud."
