

U.S. silent on flying saucers

MONTREAL, Wednesday.—Major Donald Keyhoe, author of a book *Flying Saucers From Outer Space*, said today the US Air Force had embarked on a policy of "thought control" on flying saucers.

Major Keyhoe said the air force had clamped down on all information about saucers without giving a reason.

"It doesn't want the public to realise how concerned it is over flying saucers until it has all the answers," he said.
