

Charges Secrecy On Saucers

MONTREAL, January 21.—Major Donald Keyhoe, author of the book "Flying Saucers from Outer Space," said yesterday that the United States Air Force had embarked on a policy of thought control on the subject of flying saucers.

Major Keyhoe, who will address the Chamber of Commerce in North Bay, Ontario, to-night, said the United States Air Force had clamped down on all information pertaining to saucers and no reason had been given.

"The Air Force does not want the public to realise how concerned it is over flying saucers until it has all the answers," he said in an interview.
