

THOUGHT IT WAS A FLYING SAUCER !

SYDNEY, Jan. 31.— A Kempsey, N.S.W., fisherman stopped rowing his dinghy in the middle of a heavy rain storm to-day. He stood up and threw the anchor overboard. Before it hit the water the iron anchor was struck by lightning and spun like a catherine wheel. The fisherman fell overboard with fright, scrambled back into the boat and rowed off as fast as he could for the shore.
