

## "Object" seen

MARYBOROUGH, Tues.  
—An unidentified flying object this afternoon appeared to "accompany" a cane train part of the way from Baddow to Maryborough before abruptly changing direction and disappearing at a fantastic speed.

The incident was related afterwards by the driver of the train, Mr. A. Jesse, of 122 Woodstock Street, who said his fireman, Mr. G. Jensen, noticed the object first as the train was leaving Baddow station at 4.24 p.m.

Mr. Jesse said the object appeared to be of a square cut shape and was devoid of wings.
