

## FLYING SAUCER OVER MORWELL !

"You won't believe us, but we've just seen a flying saucer."cried three lads as they rushed into the Advertiser Office on Wednesday.

The three boys, Ian Lockwood, Wayne Sill and Ken Hamilton, pupils of the Commercial Rd State School saw a white object in the sky to the north of Morwell. Rising and falling and trailing fire, it travelled west at terrific speed.

Imagination? Well we didn't see, we didn't believe them.
