

"FLYING SAUCER" AT PEAK HILL

PEAK HILL, Wed. — People of Peak Hill have again reported a strange object flying high above them. In January, several men, reported seeing a spherical object, with a tail, that moved at high speed above the town. A similar object was seen by at least 50 residents of Peak Hill yesterday.

In a clear, bright sky, the object, which was described as being like a large silver ballon with a tail, appeared to hover over Peak Hill, at a high altitude, and then flew off in a south-western direction. All the observers claimed that it made a whinning sound, like wind in a group of tall trees..
