

# Children see flying saucer

**Morwell, Wednesday**

**Excited Commercial Road State School children playing in the school yard reported today that they had seen a "flying saucer" flash over Morwell.**

**Three of the children— Ian Lockwood, Wayne Snell, and Ken Hamilton — said that about 12.45 p.m., with the other children, they saw a "silver object" travelling at high speed south of Morwell.**

**The object descended suddenly, and as its altitude increased again at a terrific rate, flames and sparks were seen.**

**The three boys' story was verified by a number of other children.**
