

"COULD HAVE TOUCHED" FLYING SAUCER

Mr. A. Bean, of Leader avenue, Kilburn, claims he saw a flying saucer so low that he "could have almost touched it." at 3.30 a.m on Thursday.

"It must have been flying at 1,000 m.p.h. at least," said Mr Bean

"It went past my window in a split second, but I had time to see that it was a round object with circles of lights around it.

"I should say it was going towards Riverton at the time."

Mr. Bean said that a "tremendous roar," like a

Mr. A. Setterberg and Mr. Eric Ridgeway reported seeing the object.

motor car or a gust of wind, heralded the approach of the saucer.

BERRI, April 9.—Many residents of Winkle, near Berri, yesterday reported having seen at 8.55 a.m. a cigar shaped object of a silvery color.

It came from the west and seemed to turn on its side as if to turn and then it slowly disappeared

It was in sight for about five minutes
