

Two Men See Flying Saucer

Melbourne: Two men will swear that they saw a flying saucer at Cressy in the early hours of yesterday morning.

They claim that it streaked across the sky for four minutes as they watched spellbound from the cabin of their locomotive.

The men are Colin Beacon, a 23-years-old fireman, and Ted Smith, a 26-years-old enginedriver, both of Cressy. They are held in high regard by the local people.
