

Two Girls Sight "Flying Saucer"

Miss Marlene Taylor, 18, of Wright street, Henley Beach, and Miss Ethna Killian, 17, of Marlborough street, Henley Beach, yesterday reported having seen a "saucer-shaped" object in the sky while they were waiting for a tram at Henley Beach terminus about 7.45 p.m.

They said they saw what appeared to be a mass of fog drifting across the sky from the north-east.

"It suddenly formed into a solid - looking saucer which glowed eerily," they said.

"It drifted across the sky for about four seconds and disappeared into thin air."
