

ROMA REPORTS *V-shape* *'saucer'*

ROMA (by telephone)

—A strange V-shaped object described as a "Flying Saucer" is reported by residents here to have swept across Roma at the week-end.

At least half a dozen of Roma's citizens spread over a distance of up to 40 miles, claim to have seen the object.

They set its time of appearance at 11.45 pm Saturday, and say it was travelling at hundreds of miles an hour, only 100 to 200 feet up, towards the southwest.

Mr. E. V. Wipple, a district grazier, of Hawthorne Street, said the object was bright yellow, and about the size of a sedan motor car. It made no noise.

Mr. E. S. Crawford, a town publican, saw the object at the same time, from a point seven miles outside Roma.

"Mystified"

He said yesterday he thought it was first a plane and then a star, but was mystified at the speed at which it travelled.

ied at the speed at which it travelled.

Miss Helen Barker, a stenographer, said the object appeared V-shaped, and had what seemed to be two red rear lights.

Residents say no planes were in the vicinity at midnight last Saturday, and that the object was following no usual route.
