

FLYING SAUCER OR JET ROCKET

—*—

Our Surfers Paradise representative reports that four South Coast ladies had an unique experience yesterday when they saw a strange object akin to that which has been described as a "Flying Saucer." The ladies were playing tennis at Broadbeach when they noticed a strange object travelling from the north in a south-easterly direction. When about due east of them it turned and went in a westerly direction until it disappeared from view. The object was of global shape inside an elliptical ring. A trail of white vapour flowed behind. The object which was at considerable height emitted no noise. The object was first sighted at 10.40 a.m. and it disappeared from view 7 minutes later. After watching the object for about a couple of minutes one of the quartette of ladies ran to an adjoining house and informed them of the incident and some of household came out and saw the

came out and saw the phenomena.

The appearance of the object was reported to the appropriate authorities.

At about the same time 10.30 a.m., quite a number of people in Nerang Street saw what they thought to be a "rocket" very high in the sky, with a long dark trail. They heard no sound and watched it for almost a quarter of an hour.

Reports received of people in Bauer Street seeing something which one of them states was a jet rocket because as it turned she saw two tails. It was silvery grey, and in the distance reminded her of a big cigar. The smoke that trailed behind it was about 50 times its length.

Similar reports came to hand from outside centres including Pimpama and the Tweed.
