

"FLYING SAUCER" SIGHTED

A MYSTERIOUS object, which left behind a white vapour trail and travelled straight upwards at a terrific speed, was seen by two Green Line passenger coach drivers near Elizabeth Town last Wednesday.

The drivers, Messrs. F. G. Lovell and R. Stevens, both of Burnie, were travelling towards Burnie in the afternoon service bus with Mr. Stevens driving.

Near Elizabeth Town, on the Launceston side, about 3.30 p.m., the driver suddenly saw the object and pointed it out to Mr. Lovell, who was riding in a front seat.

"It seemed to come from ground level and travel directly upwards at terrific speed, passing through clouds and open

ing through clouds and open sky," Mr. Lovell said.

"It left a white vapour trail behind and was out of sight in a few seconds.

"It was travelling too fast to be clearly seen, and just appeared a dark object.
