

BOY SEES FLYING SAUCER WITH "PEOPLE" ABOARD

MELBOURNE, Wed.—“Oval-shaped and as big as a railway carriage” was the way 18-year-old David Reese (right) described a flying saucer” which dived over East Malvern (Melbourne) a few days ago.

Reese and five other youths saw the object which made a sound which he described as “the buzzing of a telephone when you lift the receiver.”

ceiver.”

According to Reese, the object seemed to have people in it.

"I could distinctly see dark shapes like busts in the object. If I had seen the same shapes in an aeroplane I would have said they were people."

Reese said that the object which moved in an arc was dark with faint vertical streaks of light on the side. It reportedly belched out a yellow gaseous matter from its stern.
