

Saucer claim over Malvern

A **NOTHER** flying saucer was reported over Malvern last night—this time a grey one.

Mr. Frank Johnstone, an engineer, of Belson st., Malvern, said he watched a round, grey object for about five minutes at the corner of Burke rd. and High st., East Malvern, about 9 p.m.

Mr. Johnstone said: "It seemed to have a small red light in it, and was travelling in circles. There seemed to be another light following it.

"It was travelling at about the same speed as a plane, probably about 10,000ft. up."
