

## **WAS IT A FLYING SAUCER ?**

### **Strange Sight Seen Over Muswellbrook**

A Muswellbrook woman, who says she is not accustomed to "seeing things," states that her attention was drawn to a strange sight over Muswellbrook on Tuesday evening.

Her mother first saw the object in the sky, and asked her to come outside and see the object.

Our informant said she was busy at the time, and asked her daughter to go and see what was happening.

All three then viewed the strange object, which they said was moving over the town, with lights showing.

Note: Recently reports have been received from as far south as Melbourne of people having seen what they believed to be strange aircraft in the sky at night time.
