

# Flying Saucer At Kyabram Now.

Mr. Dudley Hazelman, of Kyabram, has given his version regarding an unusual object in the sky, which he witnessed when travelling home to Kyabram from Wyuna about 5 p.m. recently.

He said his attention was attracted to what looked like a ball of fire in the south-west sky. It appeared to be about the size of a 40 gallon petrol drum. The brilliant light radiated from the object somewhat similar to that of a powerful electric light bulb. It was at a great height and seemed to be falling, and was visible for about 10 seconds before disappearing behind some clouds.

During the week several other

During the week several other Kyabram residents have stated that they have seen strange objects in the sky. Their descriptions differ somewhat to the above.
