

FLYING "SAUCER"?

Two youths saw a "dazzling object, bigger than a plane" zoom over Pascoe Vale public school about 8 p.m.

They are Tob Blake, 19, and Allan Jackson, 20, both of Essex-st., Pascoe Vale.

Blake said the object was moving too fast for them to be able to distinguish its shape.

"It made a buzzing sound as it flashed across the roof of the school only about 30 yards from us," he said.

"We saw it for only a few seconds before it disappeared.

"We are quite sure it was not a plane.

"A plane would not disappear so suddenly or make the soft buzzing sound we heard."
