**CRASHED** Heard about the flying saucer and the space ships but an Orbost resident the other day saw the first one crash. It was not at night but in broad daylight. Far off in the eastern sky, he saw a flash of fire and then there was a trail of light as the space ship or flying saucer crash-

ed towards the sea. Well, maybe, it was not. If it was a meteor or falling asteroid or something else, it was the first one he had ever seen in the daylight. There have been so many comments that he contends it was a pity it did not drop close to Orbost so that they all could have inspected it.

**SERVICE** Next week, the elections will be decided. To-night to-night, members of the City Council and representatives of the community will have an op-

portunity to say "Thank you" to the three retiring councillors, Messrs. G. N. Valentine, J. E. Christie and S. K. Jones for the service they have given to the community in the municipal sphere. Messrs. Christie and Valentine filled the mayoral position, the former paving the way for the latter. To the three, the city owes a

the three, the city owes a deep debt of gratitude because they spared not themselves in that Sale might become a better place in which to live. To each by his own right, a place in the history of Sale has been given and to each, the community must say "Thank you for a job well done".

**NO PARKING** That is how sign at the intersection of Cunninghame and Raymond streets, just around Dan Saver's corner near the water trough. Read it from the footpath and that is how it appears. Then have a look at it from the other side, the one whom the motorist is supposed to see. If the pavement was transparent and the slab on which the sign is painted, turned over, the sign would read to the motorist "No Parking".

**CHANGE** Remember when the Memorial Hall, Youth and Civic Centre

Hall, Youth and Civic Centre was first mentioned in Sale? The artists we e looking for a garden setting in which to place a lovely building, a place to which all Sale and district would turn for their community and cultural activities and where the youth of the city might find a home. The selection of a suitable site was not easy but there was one between York and Raymond streets near to the centre of the city. It could not be obtained so the Macalister street site had to be purchased as next best. Now, the new hall has not started but the original site is now for sale. Wonder if the committee would be interested in securing that lovely garden setting for the new building?

**SEASON** Heard the usual grumble about the weather the other day. "Just like Gippsland, four seasons in the one day. Wonder it did not snow". That

turned the attention to the Commonwealth Meteorological Service, an excellent branch of which is located at East Sale. Chief climatologist or weather forecaster, Allan Brunt, has been promoted to Brisbane. His good fellowship and ever ready co-operation goes on to a new sphere. It is understood that he now becomes chief rival to Indigo Jones in the northern sphere.
