

• 'No leg pull' SCARE ON "SAUCER"

SINGAPORE, September 5 (AAP) — A "flying saucer" scare swept Singapore last night.

Several people reported to the Royal Air Force authorities at the civil airport at Kallang they had seen a fast-moving light which "could only have been a flying saucer."

An RAF spokesman said: "This is no leg pull. Something strange has been seen by at least six people and probably many more. We have no explanation to offer yet."

The RAF spokesman said it could not have been a star that people saw, because there was thick cloud over Singapore at the time.

He said the reports had been entered in the log, but no further action would be taken.
