

VINTAGE CROP OF SAUCERS

LYONS, Thurs (AAP):

A flying saucer circus has visited the skies around Lyons, according to four separate reports from eye witnesses.

One farmer, Yves David (28), of Chattellerault, insisted he was actually touched by a creature in a spacesuit.

The creature paralysed him momentarily with a green ray and made off in a trail of sparks.

Dr. M. Martinet, of Chambéry, a former artillery observer, backed up by 15 witnesses, said he saw a dark grey mass hovering over mountains at an alti-

over mountains at an altitude of about 6000 feet.

Plate-Shaped

The doctor said that when the grey mass lost height it appeared in the shape of a plate bottom side up, light in colour with dark patches all around.

Then it shot away like lightning and disappeared.

A Valance woman said she saw a flying saucer making a whistling noise in a field.

She rushed to find witnesses but the saucer had disappeared when they returned leaving a circle of crops nine feet across broken down as if something had landed there.
