

## ***“Flying Saucers Circus”***

**PARIS, Thurs. (AAP):** A “flying saucer circus” has visited the skies around Lyons, according to four separate reports from eye-witnesses.

A farmer, Yves David, insisted that he was actually touched by a creature in a space-suit, who paralysed him momentarily with a green ray and then made off in a trail of sparks.

Dr. M. Martinet, a former artillery observer, backed by 15 witnesses,

said he saw a dark grey mass hovering over mountains at about 6000 feet. When the grey mass lost height it appeared “in the shape of a plate, bottom-side up,” light in color, with dark patches all around. Then it “shot away like lightning and disappeared.”

A woman said she saw a “flying saucer” making a whistling noise in a field. She rushed to find witnesses, but the “saucer” had disappeared when they returned, leaving a circle of crops nine feet across broken down, as if something had landed
