
FLYING SAUCER ?

(To The Editor)

Sir. Could this be a Flying Saucer?

We were travelling into Broken Hill opposite the Flying Doctor's Base on Tuesday night between seven and half past.

Suddenly a large, brilliantly-lighted object appeared in the sky in front of us. We had a good view of it, and watched it travel a fair distance towards the north and disappear in the sky as brilliant as it came.

It seemed the shape of a flying bat, with circles all over it. Yours etc. "Curious"
