

## TALKED WITH PILOT OF FLYING SAUCER

TOULON, Mon.—Two French motor cyclists swore in Toulon yesterday that they talked to the "pilot" of a flying saucer parked in the middle of the Hyeres-Toulon road on Thursday night.

The two men, Mario Rapellini and Pierre Ottoviani told police they found the flying saucer was a circular object with two legs resting on the ground. It had a bulge on top, and two earlike openings at the side.

As they gingerly approached, they said a medium sized man "dressed in grey overalls of some strange material stepped out."

The following conversation took place, in French:

Rapellini: Are you a Martian?

Stranger: No I'm French. Where am I?

They told the "pilot" where he was and he re-entered his machine through a "triangular opening."
