

Who said 'flying saucer'?

● ● Most Australians think "flying saucers" are merely imagination, the Gallup Poll says.

Of an Australia-wide cross-section of 1900 people interviewed:

◆ Only 28 per cent believe there are really such things as flying saucers.

◆ 72 per cent think people's claims to have seen flying saucers are only imagination, or mistaken identity.

The 72 of every 100 who say the claims are false believe they probably arise from:
