

Another Report Of "Saucer"

Another report of a flying saucer was received at "The Mercury" office yesterday, supplementing the report of a "weird object" seen by a resident of New Norfolk on Wednesday night.

Miss Diana Scott (13) of Hopkins St West, Moonah, told her mother on Wednesday night that she had seen a flying saucer.

She said that it was bigger than a star and its general direction was towards New Norfolk.

It seemed to have a glow or sparks coming out at the back.
