

# Alert over "saucers"

**S**YDNEY. — Pilots and radar operators at the Nowra naval air station have been alerted to watch for unidentified sky objects.

Two "flying saucers" were seen by a Sea Fury pilot flying at night in the Goulburn area three months ago.

Officers said this yesterday during an inspection of the station by the Navy Minister (Mr. Francis). They told journalists accompanying Mr. Francis that investigations into the incident were "secret."

The Nowra station is on the N.S.W. south coast.

## Inquiry order

In Ipswich last night Mr. Francis said "this matter was not mentioned" to him at Nowra.

"I will order immediate investigations into the matter," he said.
