

ANOTHER "FLYING SAUCER" ?

MELBOURNE, Monday —
Several people reported seeing a strange object over Melbourne early yesterday morning.

Four Commonwealth officers on security duties at the Mari-
byrnong explosives factory were among those who saw something flying low with a "hissing" noise, and leaving a trail of sparks.

The sky at the time was cloudy, but there was no thunder or lightning.

All the reports placed the time at 2.45 a.m.

One Commonwealth officer (Mr. T. B. Hehir) said: "I have never believed in flying saucers, and I have seen some strange sky phenomena working at night, but this will always be in my mind."

Mr. Hehir added the whole ground was lit up by the object. When he looked skywards, he saw what appeared like a fire below the clouds.
