

Strange Light In Northern Sky

Mr. C. C. Lawrence, Goodradigbee Shire clerk, said this morning that about 4 a.m. yesterday he saw a strange light in the sky to the north of Yass.

He said the light, which was more subdued than brilliant, was first a white colour. Then it turned to red. It disappeared about 5 a.m. in a faint glow.

Mr. Lawrence said it was very misty at the time, but the sky surrounding the light was quite clear.
