

U.F.O. Sighted Over Richmond

A correspondent, Mrs. M. Sampson, reports the sighting of "an unidentified flying object" over Richmond at about 9 p.m. on Sunday.

Mrs. Sampson said a bright object, travelling at a great speed and in a steady orbit from the direction of Kurrajong towards Penrith, was observed by four Richmond residents.

The object was flying too high to be a plane and too steady to be a meteor, Mrs. Sampson said.
