

## Caution on UFO claim

SYDNEY, Tuesday. — Astronomical authorities were cautious today about a claim by a Vaucluse businessman that he saw a luminous disc-shaped flying object on a beach near his home last night.

The man, Mr Denis Crowe, 44, a former British diplomat and army officer, said the object was about 20ft across and 9ft high and appeared to be standing on three legs.

He said he stood 50ft from it on the beach at Vaucluse, then watched it take off and gradually disappear in clouds.
