

Elusive flying saucer

their television set.

PERTH, Thursday. —
A farmer said today that a flying saucer landed in his paddock beside his Land Rover last night and took off again as he stepped out to examine it.

Mr Alan Pool, 43, farm manager, told police that the object was circular,

about 15 to 20ft across, and about the same height as his vehicle. It stopped so close that he barely had room to open his car door.

"I was near enough to touch it, before it took off in a flash", he said today.

"I called out to it, and despite blustery wind conditions my own words came back to me. It was not an echo.

"I only wish someone else had been with me so that people might believe me more. I am convinced of what I saw".

Mr Pool, who lives on the farm at Yericorn, 99 miles north of Perth, said that at the same time — about 6.30pm — his wife inside the house noticed a rolling of the picture on their television set.
