

U.F.O. sighted between Tocumwal and Finley?

Two young men holidaying with Mr and Mrs A. R. Cooling of Finley reported sighting a bright glowing object in the sky when returning from Cobram on Sunday night at about 11.45 pm.

They are Lewis Grinham, 18 of Coleraine, Vic. and Brian Crichton of Numurkah.

In an interview with these men, they said whilst returning to Mr Cooling's home and travelling approximately half way between Tocumwal and Finley, they noticed a very bright light appear over their car. At first they thought it was the headlights of another car.

The object hovered over their car for a few moments and rising, disappeared into the distance towards Finley.

Accompanying the men were Bill Cooling, 20, and Greg Cooling, 12, who both witnessed the bright light.

They said that they saw the bright light for about 5-10 minutes and eagerly read

10 minutes and eagerly read an article in a newspaper which they had not read before the interview which also told of reports of similar occurrences in the area.

A total of eight people reported seeing a bright object in the early hours of Saturday morning and unconfirmed reports have it that two policemen stationed at Deniliquin have also sighted a similar object.
