

# UFO book

Sir, — I should like to apologise to the many readers of your excellent journal who were kind enough to write, telling me of their sightings of Unidentified Flying Objects, only to find that their reports had been omitted from my book 'UFOs over the Southern Hemisphere'. All their letters were included in the original manuscript, which finally totalled 150,000 words, thus compelling the publishers to eliminate some of their letters etc.

I feel very badly about this and will do my utmost to have the missing letters included in the next edition.
