## FLYING SAUCER SIGHTINGS

**Mr. Peter M. Powell, director, U.F.O. Research and Investigation (Australia) writes:**

Recently, there has been a revival of interest in the problem of unidentified flying objects (UWO's or flying saucers) in various parts of Australia.

UFO sighting reports in South Australia are being jointly collated and investigated by UFO Research and Investigation

search and Investigation,  
and Aerial Phenomena Re-  
search Group.

The two organisations  
are always interested in  
this subject, and ask any  
people who wish to report  
any strange objects or  
lights, or who are interest-  
ed in the UFO problem to  
contact either UFO Re-  
search and Investigation,  
P.O. Box 51, Glenside,  
5065, telephone 79 2595, or  
Aerial Phenomena Re-  
search Group, P.O. Box  
114, Christies Beach, 5155  
telephone 82 3532.
