

# WOMEN CLAIM UFO AT BUNDI

**Two Australian women in Madang believe they watched an unidentified flying object at Bundi on Sunday night.**

They were sitting in a Bundi home at about midnight when they saw a light in the distance.

**Both thought it was a star but as they continued to watch they noticed a red and green light near it.**

It appeared to remain stationary until it suddenly "dropped".

Then it moved to the right horizontally and then to the left.

After watching the object for about a quarter of an hour, one of the women saw a flash on a nearby hilltop and the "object" disappeared.

Both are at a complete loss to explain the phenomena.
