

GOROKA UFOs

Three people reported seeing unidentified flying objects over Goroka on Friday morning.

Mr and Mrs J. W. Wheeler said they saw a bright, vaguely globular light moving steadily towards them from the south side of the airstrip at about the height of an aircraft, at about 6am.

The light moved off in the direction of Lae.

At 5.30 the same morning, the firemaster at the airstrip reported seeing a similar light hover overhead for 25min, then it split into two parts.

He said one of the parts was bright blue and moved off towards the mountains. The other part moved towards Bena.

Flying is prohibited before about 6.15am at Goroka.
