BUENOS AIRES. Fri.,  
AAP. — An Argentinian  
rail stationmaster was in  
hospital with shock today  
after signalling the arri-  
val of an unidentified  
flying object (UFO), in-  
stead of the expected  
freight train.

• Felipe Orozco said a  
strange object flew over  
the station shortly before  
midnight, illuminating it  
with bright light, and he  
fled from the signal tow-  
er to his office where  
domestic animals also  
hid.

After he failed to open  
a switch for the freight  
train the train's en-  
gineer found him in a  
shocked state in the of-  
fice.

The apparition was at  
Remblon in Mondoza  
Province, 1100 km west of  
Buenos Aires.
