
UFO PROBE CONTINUES

W E L L I N G T O N,
Thurs, AAP — The New Zealand Defence Department has decided to continue investigations into sightings of unidentified flying objects near the rugged Kaikoura coast on New Zealand's south island, a spokesman announced today.

The announcement

follows an unsuccessful attempt by a Royal New Zealand Air force Orion aircraft on Tuesday night to check out UFO sightings in the area.

“Our aim is to resolve what the phenomenon is that is creating the interest in the Kaikoura region,”

Kaikoura region,
squadron leader **Geoff**
Clarke said today.

But he made it clear
there were no plans to
repeat the **Orion UFO-**
tracking vigil.
