

More UFO's predicted

World tensions, heightened by crisis in Iran and Afghanistan, will cause increasing flying saucer activity throughout the world, including Eyre Peninsula.

Public relations officer of the Australian Flying Saucer Research Society, Mr. Colin Norris, predicted this today.

Mr. Norris believes Eyre Peninsula is on a flying saucer corridor, a route regularly taken by the craft, an assessment based on sightings from the district in previous years.

Now predicting increased activity as flying saucers monitor the worsening world situation, he has asked anyone seeing objects in the sky to report the sightings to Kingsley and Rosie Knott of North Shields, phone 843535.
