

# CLUB'S BIGGEST

●The president of the Port Lincoln Model Flying Group Mr. Brian Slape is pictured with his latest model, the Bridi U.F.O. which has a wingspan of 64¼ inches and is the largest aerobatic plane in the club. Mr. Slape built the model from a kit. It has a fibreglass fuselage and balsa sheeted wings with a foam core. It is powered by a 10 cc Speed Webra and controlled by a four channel radio. It can fly at speeds in excess of 100 miles per hour.
