

UFO seen

A strange light in the Southern sky was sighted by a Victor Harbor woman in the early hours of Friday.

Mrs. Meredith Thornton, of Bay Road, described it as "like a floodlight".

"It was stationary for about 30 minutes," she said.

"Then it started to move. I was too frightened to watch it any longer."

Mrs. Thornton said her husband also saw the light.

She said she would be interested to hear from any other witnesses.
