

ARE U.F.O.'s REAL?

- Sightings of mysterious

light and objects are a puzzle.

A recent new sighting of an unexplained bright light in the Mareeba area, questions the truth about U.F.O.'s (Unidentified Flying Objects). Any day now in the Torres Strait area, with increased activity by land, sea and air, someone is going to report a mysterious light or object. And so they should. However, the best explanation I've ever heard was given some years ago by a newspaper journalist. A reader of his column wrote and asked, "Are there such things as U.F.O.'s?" There followed this penetrating and perceptive answer, "Of course there are such things as Unidentified Flying Objects. Think man, think!"

Life is full of unanswered questions, and many people are unnecessarily apprehensive. When those answers finally come they often are not what we expected anyway! Jesus once asked, "Why are you afraid? Have you no faith?" If we love God we'll find that perfect love casts out fear. Or as a recent wise man noted, "Most of our worst fears haven't even happened yet!"
